

SchoolHeart Helps Save While Helping Others

Everyone knows weddings are expensive, but Sandra Burnett, award-winning owner of Sister's Catering and author of *Secret Wedding Savings*, shows how you can have the wedding of your dreams at an affordable price. Over the last two years, she has also helped establish SchoolHeart, Inc., an innovative solution for non-profits that can help everyone, including new brides.

"I believe SchoolHeart has a strong foundation from which to grow nationally, and I am proud to have been involved in bringing this concept to our area," Sandra said. "We can positively impact brides, communities, and businesses."

Combining innovative Internet technology with cause-related marketing, www.schoolheart.com is designed to bring communities together where it counts most. SchoolHeart's patent-pending program is free to schools and nonprofits, easy to use, and funding is perpetual. In addition, SchoolHeart marketing representatives work hands-on to ensure the program's ultimate success.

Utilizing local and national name-brand vendors, SchoolHeart's flagship program is the hCard. The "show and save" card can be used locally, as well as nationally to gain discounts at participat-

ing vendors. The hCard also works as an Emergency Contact information system. The hCard is an easy and effective way to supplement fundraising strategies immediately and for years to come. Local and national businesses gain great visibility in the community by offering discounts and special promotions available exclusively to hCard holders.

SchoolHeart is a company serving communities across America and is living up to its slogan, "Funding the Heart of America.™" SchoolHeart also provides free

cards to firefighters, law enforcement officials, EMS personnel, and school faculty and staff as a "thank you" for supporting the community. Everyone, including the new bride, can take advantage of this wonderful new concept that helps all involved. Get your hCard at www.thehcard.com.
